

Green Screen Project Steps

By Bergman Academy's 5th Graders

- Select a topic.
- Read a variety of informational text to learn about your topic.
- Take notes and determine important facts.
- Add each source you use to a Works Cited page. We used easybib.com.
- Write an informative piece about your topic. This will be what you are saying in your green screen video.
- Type your paragraph into the DV Prompter app.
- Use a green background to set up your green screen. Make sure your clothing is not green.
- One person needs to hold an iPad with the DV Prompter app scrolling, and another should record using the iPad camera.
- Save your video to your camera roll, and then transfer it to the Green Screen by Do Ink app.
- Insert as many background photos/videos as desired.
- Use Creative Commons Search to find images.
- Upload video to your camera roll.
- We then uploaded the videos to our teacher's YouTube channel, but it is not necessary.
